Purpose

The *Style the Stein* Competition is designed to allow organizations to take an active role in Keeping Muenster Beautiful in a way that also encourages better stewardship behaviors in others. It is also an opportunity to display your "name or purpose" to the public.

While the three "R's" (Reduce, Reuse, Recycle) will help prevent debris all throughout the Park, proper use of trash receptacles can reduce debris directly from the Park. By "*Styling the Stein*" you can enhance the aesthetics of the Park and draw attention to these receptacles to promote their use and your organization.

Materials

- The trash receptacles are made from a similar material to standard home rain barrels.
The following site has some great suggestions and guides for preparing the surface
 - o <https://youtu.be/BVtLTkGO3zs>
 - o Please use paint made for use on plastics
 - o The best way to ensure paint adheres to the barrel is to sand the surface with fine-grit sandpaper before painting. Otherwise the paint tends to peel from the smooth surface.
 - o Please spray barrel with a clear coat after painting to ensure the integrity of your art.
